Lune Aqueduct was built in 1797.

Lancaster Canal – Date of first use
1797 – Date completed – 1826

Aqueduct

A large system for carrying water from one place to another. Aqueducts may supply water to cities or farms for irrigation.

Waterway

Any body of water over which boats travel can be called a waterway.

Canal

Canals are waterways that are built by people and used for shipping, trade, travel and irrigation.

Lune Aqueduct

John Rennie and Alexander Stevens

Irrigation

The process of watering the ground, or when water is taken from one place and sent to where it is needed.

Architecture

The science and art of designing buildings. People who practice architecture are architects.

Transport

Transportation is a way of movement of human beings and goods from one place to another.

Trade

Trade is the buying and selling of goods and services.

The Use of Lune Aqueduct
